- Given the nature of companies that we invest in - healthy and consistent cash generation over the longer term - we believe only in DCF (Discounted Cash Flows) methodology for valuations. This approach allows us to factor in the longevity of consistent returns of a business by giving a visibility of how an industry can realistically develop in future and how a company within that industry can evolve.

The IT Act is amended every year by the Finance Act of the relevant year, and this summary reflects the amendments enacted in the Finance Act, 2023. The tax rates mentioned below relate to Financial Year 2023-24 (Assessment Year 2024-25).

I. Taxation in hands of Clients

A. Resident taxation

A resident investor should be subject to tax on his / her global income. In the case of a resident but not ordinarily resident, any income which accrues/ arises outside India shall not be subject to tax in India, unless it is derived from a business controlled in India / profession set up in India.

A HUF, firm or other AOP is said to be resident in India in any previous year unless where the control and management of its affairs is situated wholly outside India during the year under consideration.

A Company is said to be a resident in India in the previous year if (i) it is an Indian Company; or (ii) its place of effective management is situated in India.

Every other person is said to be resident in India during the year under consideration except where the control and management of affairs is situated wholly outside India.

B. Non-resident taxation

A non-resident investor would be subject to taxation in India only if it derives (a) Indian-sourced income; or (b) if any income is received / deemed to be received in India; or (c) if any income has accrued / deemed to have accrued in India in terms of the provisions of the IT Act.

Section 6 of the IT Act was amended by the Finance Act, 2015 to provide that a foreign company should be treated as a tax resident in India if its place of effective management (“**POEM**”) is in India in that year. The Finance Act, 2016 provided that the said amended provisions are effective from 1 April 2017. POEM has been defined to mean a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole are, in substance made.

The Central Board of Direct Taxes (“**CBDT**”) had *vide* its Circular dated 24 January 2017, issued guiding principles for determination of POEM of a Company (“**POEM Guidelines**”). The POEM Guidelines lays down emphasis on POEM concept being 'substance over form' and further provides that place where the management decisions are taken would be more important than the place where the decisions are implemented for determining POEM. The CBDT had *vide* circular dated 23 February 2017, clarified that provisions of Sec 6(3)(ii) relating to POEM would not apply to companies having turnover or gross receipts less than or equal to Rs. 500 m during the Financial Year.

- *Tax Treaty Benefits*

As per section 90(2) of the IT Act, the provisions of the IT Act would apply to the extent they are more beneficial than the provisions of the Double Taxation Avoidance Agreement (“**Tax Treaty**”) between India and the country of residence of the offshore investor to the extent of availability of Tax Treaty benefits to the offshore investors (subject to General Anti-Avoidance Rules (“**GAAR**”) provisions discussed below and to the extent of availability of Treaty benefits to the non-resident investors). However, no assurance can be provided that the Tax Treaty benefits will be available to the offshore investor or the terms of the Tax Treaty will not be subject to amendment or reinterpretation in the future.

The taxability of such income of the non-resident investor, in the absence of Treaty benefits or from a country with which India has no Treaty, would be as per the provisions of the IT Act.

Further, to prevent the granting of Tax Treaty benefits in inappropriate circumstances and to align it with the Multilateral Convention to implement Treaty related measures to prevent Base Erosion and Profit Shifting, the Finance Act, 2020 has amended Section 90(1) to provide that the Central Government shall enter into agreement(s) for the avoidance of double taxation without creating opportunities for non-taxation or reduced taxation through tax evasion or avoidance (including through treaty shopping arrangements aimed at obtaining reliefs provided in the said agreement for the indirect benefit to residents of any other country or territory).

- *Tax Residency Certificate*

Section 90(4) of the IT Act provides that in order to claim Tax Treaty benefits, the offshore investor has to obtain Tax Residency Certificate (“**TRC**”) as issued by the foreign tax authorities. Further, the offshore investor should be required to furnish such other information or document as prescribed. In this connection, the CBDT *vide* its notification dated 1 August 2013, amended Rule 21AB of the IT Rules prescribing certain information in Form No. 10F to be produced along with the TRC, if the same does not form part of the TRC.

The details required to be furnished are as follows:

- Status (individual, company, firm, etc.) of the assessee;
- Nationality (in case of an individual) or country or specified territory of incorporation or registration (in case of others);
- Assessee's tax identification number in the country or specified territory of residence and in case there is no such number, then, a unique number on the basis of which the person is identified by the Government of the country or the specified territory of which the assessee claims to be a resident;
- Period for which the residential status, as mentioned in the TRC, is applicable; and
- Address of the assessee in the country or specified territory outside India, during the period for which the certificate is applicable.

While, as per the extant law, Form 10F should not be required if the above information already forms a part of the TRC. However, recently there has been a notification issued to the effect that Form No. 10F should be generated electronically on the Income-tax portal and hence, where any treaty benefit is sought, practically it is advised that along with TRC, Form No. 10F as generated over the income-tax portal should also be furnished.

C. Characterisation of income

Traditionally, the issue of characterisation of exit gains (whether taxable as business income or capital gains) has been a subject matter of litigation with the Indian Revenue authorities. There have been judicial pronouncements on whether gains from transactions in securities should be taxed as 'business income' or as 'capital gains'. However, these pronouncements, while laying down certain guiding principles have largely been driven by the facts and circumstances of each case.

Also, the CBDT has provided guidance (*vide* its Instruction no. 1827 dated 31 August 1989 and Circular No. 4 of 2007, dated 15 June 2007) in respect of characterisation of gains as either capital gains or business income. Following are the key illustrative factors indicative of capital gains characterisation (not business income):

- (a) Intention at the time of acquisition - capital appreciation
- (b) Low transaction frequency
- (c) Long period of holding
- (d) Shown as investments in books of accounts (not stock in trade)
- (e) Use of owned funds (as opposed to loan) for acquisition
- (f) Main object in constitution document is to make investments
- (g) Higher level of control over the investee company

Regarding characterisation of income from transactions in listed shares and securities, the CBDT had also issued a clarificatory Circular No. 6 of 2016, dated February 29, 2016, wherein with a view to reduce litigation and maintain consistency in approach in assessments, it has instructed that income arising from transfer of listed shares and securities, which are held for more than twelve months would be taxed under the head 'Capital Gains' unless the tax-payer itself treats these as its stock-in-trade and transfer thereof as its business income.

In the context of transfer of unlisted shares, the CBDT has issued a clarification *vide* Instruction No. F.No. 225/12/2016/ITA.II dated May 2, 2016 stating that income arising from transfer of unlisted shares would be considered under the head 'Capital Gains' irrespective of the period of holding with a view to avoid dispute /litigation and to maintain uniform approach (with tax treatment on transfer of listed shares). However, the above shall not apply in the following cases:

- The genuineness of transactions in unlisted shares itself is questionable; or
- The transfer of unlisted shares is related to an issue pertaining to lifting of corporate veil; or
- The transfer of unlisted shares is made along with the control and management of underlying business

and the Indian Revenue Authorities would take appropriate view in such situations.

D. *Different streams of income and it's tax implications*

The tax implications in the hands of resident as well as non-resident investors on different income streams pertaining to investment in securities are discussed below:

The Indian Company would be liable to pay dividend distribution tax at the effective rate 20.56% till F.Y, 2019-20 of the dividends at the time of distributing to the investors.

Further, the loss so ignored would be deemed to be the cost of acquisition of such additional units as are held by him on the date of sale or transfer. of original units. Further, w.e.f 1st April 2023, the above provisions shall also apply to purchase of securities, units of business trust and beneficial interest of an investor in an AIF.

xii. Minimum Alternate Tax

The Taxation Laws (Amendment) Act, 2019 has reduced the base rate of MAT from 18.5% to 15% (plus applicable surcharge and cess), which shall be applicable w.e.f. 1 April 2020 i.e. financial year 2019-2020.

As per the IT Act, if the income-tax payable on total income by any company is less than 15% (excluding applicable surcharge and health and education cess) of its book profits, the company will be required to pay MAT which will be deemed to be 15% of such book profits (excluding applicable surcharge and health and education cess).

Further, MAT provisions shall not be applicable to a foreign company if such company is a resident of a country or a specified territory with which India has a Tax Treaty and the company does not have a permanent establishment in India. Also, MAT provisions are not applicable if the foreign company is a resident of a country or a specified territory with which India does not have a Tax Treaty, and the company is not required to seek registration under any law in relation to companies.

Further, the MAT credit to be allowed to be carried forward up to 15 assessment years.

Also, from FY 2019-20 onwards, MAT provisions do not apply to the below:

1. Company engaged in life insurance business (as referred to in section 115B of the IT

Act)

2. Any person who has exercised the either of the following two options:

- under section 115BAA of the IT Act, an option to pay tax at the rate of 22% (plus surcharge at a fixed rate of 10% and cess at the rate of 4%) by any domestic company subject to certain conditions; or
- under section 115BAB of the IT Act, an option to pay tax at the rate of 15% (plus surcharge at a fixed rate of 10% and cess at the rate of 4%) by certain domestic manufacturing companies

However, MAT credit (if any) shall not be allowed to be carried forward once the company exercises the option to avail reduced tax rates as mentioned above u/s 115BAA/115BAB of the Act.

xiii. Alternate Minimum Tax

The IT Act provides for levy of Alternate Minimum Tax ('AMT') on non-corporate taxpayers if the tax amount calculated at the rate of 18.5% (plus applicable surcharge and health and education cess) of the adjusted total income, as the case may be, is higher than the regular income-tax payable under the normal provisions of the IT Act. As per Finance Act 2022, the AMT rates applicable to co-operative societies are reduced from 18.5 to 15%. Such provisions are not applicable if the adjusted total income does not exceed Rs. 2 m.

Further, as per Finance Act 2020, the above provisions are not applicable in case of a person who exercises the option referred to in section 115BAC or section 115BAD of the IT Act.

II. Withholding at a higher rate

The income tax provisions provide that where a recipient of income (which is subject to withholding tax) does not have a Permanent Account Number, then tax is required to be deducted by the payer at higher of the following i.e. rates specified in relevant provisions of the IT Act, or rates in force or at 20%. However, vide notification dated June 24, 2016, the CBDT has amended the Rules, whereby this provision of the IT Act shall not apply in respect of payments in the nature of interest, royalty, fees for technical services, dividend and payments on transfer of any capital asset to a non-resident, subject to furnishing of certain details and documents. As per Rule 37BC of the ITR, the following details and documents are prescribed:

- Name, e-mail id, contact number;
- Address in the country or specified territory outside India of which the deductee is a resident;
- A certificate of his being resident in any country or specified territory outside India from the Government of that country or specified territory if the law of that country or specified territory provides for issuance of such certificate; and
- Tax identification number of the deductee in the country or specified territory of his residence and in case no such number is available, then a unique number on the basis of which the deductee is identified by the Government of that country or the specified territory of which he claims to be a resident.

As per Rule 37BC of the IT Rules, the provision of section 206AA of the IT Act shall not apply in respect of payments made to a person being a non-resident if the provision of section 139A of the IT Act do not apply to such person on account of rule 114AAB of the

IT Rules.

III. Carry-forward of losses and other provisions (applicable irrespective of the residential status)

In terms of section 70 read with section 74 of the IT Act, short term capital loss arising during a year can be set-off against short term as well as long term capital gains. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during the subsequent 8 assessment years. A long-term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during the subsequent 8 assessment years.

IV. GAAR

GAAR provisions have been introduced in Chapter X-A of the IT Act (effective from Financial Year beginning on 1 April 2017), which provides that an arrangement whose main purpose is to obtain tax benefit and which also satisfies at least one of the four specified test as mentioned below, can be declared as an ‘impermissible avoidance arrangement’.

- Arrangement creates rights or obligations, which are not ordinarily created between persons dealing at arm’s length price;
- Arrangement directly or indirectly results in the misuse or abuse of the provisions of the IT Act;
- Arrangement lacks commercial substance or is deemed to lack commercial substance in whole or in part; or
- Arrangement is entered into, or carried out, by means, or in a manner, which are not ordinarily employed by bonafide purposes.

The GAAR provisions would override the provisions of a Tax Treaty in cases where GAAR is invoked. The necessary procedures for application of GAAR and conditions under which it should not apply, have been enumerated in Rules 10U to 10UC of the IT Rules. The IT Rules provide that GAAR should not be invoked unless the tax benefit in the relevant year does not exceed Rs. 30 m.

On 27 January 2017, the CBDT has issued clarifications on implementation of GAAR provisions in response to various queries received from the stakeholders and industry associations. Some of the important clarifications issued are as under:

- Where tax avoidance is sufficiently addressed by the Limitation of Benefit Clause (‘LOB’) in a Tax Treaty, GAAR should not be invoked.
- GAAR should not be invoked merely on the ground that the entity is located in a tax efficient jurisdiction.
- GAAR is with respect to an arrangement or part of the arrangement and limit of RS. 30 m cannot be read in respect of a single taxpayer only.

V. FATCA Guidelines

According to the Inter-Governmental Agreement read with the Foreign Account Tax Compliance Act (FATCA) provisions and the Common Reporting Standards (CRS), foreign financial institutions in India are required to report tax information about US account holders and other account holders to the Indian Government. The Indian

Government has enacted rules relating to FATCA and CRS reporting in India. A statement is required to be provided online in Form 61B for every calendar year by 31 May. The Reporting Financial Institution is expected to maintain and report the following information with respect to each reportable account:

- a. the name, address, taxpayer identification number ['**TIN**' (assigned in the country of residence)] and date and place of birth ['**DOB**' and '**POB**' (in the case of an individual)];
- b. where an entity has one or more controlling persons that are reportable persons:
 - i. the name and address of the entity, TIN assigned to the entity by the country of its residence; and
 - ii. the name, address, DOB, POB of each such controlling person and TIN assigned to such controlling person by the country of his residence;
- c. account number (or functional equivalent in the absence of an account number);
- d. account balance or value (including, in the case of a cash value insurance contract or annuity contract, the cash value or surrender value) at the end of the relevant calendar year;
- e. the total gross amount paid or credited to the account holder with respect to the account during the relevant calendar year; and
- f. in case of any account held by a non-participating financial institution ('**NPFI**'), for the calendar years 2015 and 2016, the name of NPFI and aggregate amount of such payments.

Further, it also provides for specific guidelines for conducting due diligence of reportable accounts, viz. US reportable accounts and Other reportable accounts (i.e. under CRS).

VI. Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting

The Organisation of Economic Co-operation and Development ('**OECD**') released the Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting ('**MLI**'). The MLI, amongst others, includes a "principal purpose test", wherein Tax Treaty benefits can be denied if one of the principal purpose of an arrangement or a transaction was to, directly or indirectly, obtain tax benefit. The MLI has also expanded the scope of permanent establishment to include agent (excluding an independent agent) playing principal role, leading to routine conclusion of contracts without material modification. For this purpose, an agent is not considered independent if it acts exclusively or almost exclusively on behalf of one or more closely related enterprises. India has been an active participant in the entire discussion and its involvement in the BEPS project has been intensive. In a ceremony held in Paris on 7 June 2017, various countries including India, signed the MLIs.

The Union Cabinet of India issued a press release dated 12 June 2019 approving the ratification of the MLI to implement tax treaty related measures to prevent BEPS. The application of MLI to a Tax Treaty is dependent on ratification as well as positions adopted by both the countries signing a Tax Treaty.

On June 25, 2019, India has taken the final step for implementation of MLI by depositing its instrument of ratification with the OECD. The effect of such ratification by India can be known only after MLI positions of respective Tax Treaty partners are known.

VII. Securities transaction tax

STT is applicable on various transactions executed on stock exchanges as follows:

- (a) 0.001% on the sale of units of equity oriented funds on a recognised stock exchange in India where the contract for sale is settled by the actual delivery or transfer of units
- (b) 0.025% on the sale of equity shares in a company or units of equity oriented funds on a recognised stock exchange in India where the contract for sale is settled otherwise than by the actual delivery or transfer of shares or unit;
- (c) 0.1% on the purchase / sale of equity shares;

VIII. Tax Risks

The investors are subject to a number of risks related to tax matters. In particular, the tax laws relevant to the investors are subject to change, accordingly, the tax liabilities that could be incurred by the investors as a result of such changes should also change. Further, any alternative tax positions adopted by the income tax authorities could give rise to incremental tax liabilities in addition to the tax amounts already discharged by the investors. Some of the tax risks that may be faced by the investors are highlighted below:

a. Characterisation of income

As per the existing income-tax law, the income arising on transfer of listed securities held for more than 12 months immediately preceding the date of transfer could be characterised as capital gains if such assets are held as capital assets and this should not be subject to litigation by the income-tax authorities. Further, any other gains arising from the transfer of securities held by the investors may be treated either as “capital gains” or as “business income” for tax purposes, depending upon whether such securities were held as a capital asset or trading asset (i.e. stock-in-trade) and other criteria for characterising such income.

b. Denial of tax treaty benefit to non-resident investors

In case, the tax treaty benefits are denied to a particular non-resident investor, the particular investor shall have to pay higher taxes as per the IT Act.

c. GAAR

The GAAR provisions provide that an arrangement whose main purpose is to obtain a tax benefit and which also satisfies at least one of the four specified tests (i.e. arrangement is not in arm's length, misuse or abuse of tax laws, lacks or is deemed to lack commercial substance or not carried out for bonafide purpose) can be declared as an “impermissible avoidance arrangement”. Further, the GAAR provisions, if invoked, could override the Treaty provisions.

The provisions pertaining to GAAR have been effective from financial year beginning on 1 April 2017 i.e. from Financial Year 2017-18 onwards.

There is no precedence on how GAAR will be implemented by Indian tax authorities.

d. Disallowance under Section 14A of the Act

The provisions of section 14A of the Act, aims to disallow any expenditure which are incurred for earning exempt income. The tax authorities may in this regard, disallow a

particular expense in fully or partially claiming that the same is incurred for the purpose of earning exempt income. There are a plethora of decisions on the applicability of Section 14A of the IT Act, in a particular situation.

IX. G.S.T.

From 1 July 2017 onwards, G.S.T. will be applicable on services provided by the Portfolio Manager to its Clients. Accordingly, G.S.T. at the rate of 18% would be levied on fees if any, payable towards investment management fee to the Company.

THERE CAN BE NO GUARANTEE THAT THE ABOVE POSITION REGARDING TAXATION WOULD BE NECESSARILY ACCEPTED BY THE INDIAN TAX AUTHORITIES UNDER THE IT ACT. NO REPRESENTATION IS MADE EITHER BY THE PORTFOLIO MANAGER OR ANY EMPLOYEE, PARTNER OR AGENT OF THE MANAGER IN REGARD TO THE ACCEPTABILITY OR OTHERWISE OF THE ABOVE POSITION REGARDING TAXATION BY THE INDIAN TAX AUTHORITIES UNDER THE IT ACT. INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISERS IN THIS REGARD.
