Steps to Open Trading Account

1. Initial Contact – Your Service Manager / Relationship Manger will connect with you and share the account opening forms.

2. KYC Verification – We will check your existing KYC details (PAN, ID proof, address proof, etc.) on the KRA website and guide you in filling the forms, if required.

3. Updating KYC (if required) – If your KYC documents are outdated, you will need to provide the latest valid documents.

4. Internal Checks – After verifying documents and completing due diligence (including Anti–Money Laundering checks), we will create your account in our system and register it with the Exchange.

5. Updating Details – If there are any changes to your contact details or address, the KRA records will be updated based on your new account opening documents.

6. Account Activation – Within 7 days of activation, you will receive your account details along with a copy of your account opening documents.
